INTERNSHIP/TRAINING

Full Stack Developer at Undual Analytics

May 2025 - July 2025

Undual Analytics

- Built KYC verification system with **serverless file uploads** using **AWS** and **Node.js**, verified through the **admin panel**.
- Integrated **Razorpay** for **payment processing**, resolved bugs including **multiple sell transaction issues**, and implemented **feedback mechanisms** with **Toastify** for critical actions.
- Developed **role-based access control (RBAC)** for managing **sub-admins** and enhanced **admin authentication**.
- Integrated **two-factor authentication (2FA)** via **SMS API** and **email notifications** using **Nodemailer**, and developed **Customer Support System**.

PROJECTS

Social Media Video Migration Automation Tool

- Built **cross-platform video migration system** with **Node.js**, automating uploads from **TikTok/Instagram to YouTube**
- Achieved **99% reduction in manual effort**, enabling full-scale automation for creators and marketing agencies.
- Used **Puppeteer** for **video scraping** and **ffmpeg** for **format conversion & duration validation**.
- Automated **metadata extraction** (titles, tags, hashtags) and implemented **smart scheduled uploads** to mimic organic posting behavior.

media streaming

<https://github.com/amul69906995/media-streaming>

- Built a **full-stack video streaming platform** with **secure upload, processing, and playback** of videos.
- Implemented **automatic HLS transcoding** using **FFmpeg** for **adaptive bitrate streaming** and smooth playback.
- Designed **backend video pipeline** with **non-blocking child processes** to handle heavy transcoding while keeping the server responsive.
- Integrated **MongoDB video tracking system** with **status monitoring** (processing, ready, error) for **real-time updates**.

geolocator-helper

<https://www.npmjs.com/package/geolocator-helper>

- Published a **React library** on **npm (1.5k+ downloads)** for **geolocation** and **reverse geocoding** using **Olakrutrim**.
- Integrated **external APIs** for **address retrieval** with/without **API key**, and later enhanced it with **online/offline detection support**.

FestPass

- Built a **QR code-based entry system** for a college fest with **role-based access** for **users, volunteers, and admins**.
- Implemented **single-use QR generation**, **email verification**, and **automated notifications**, enabling **secure check-ins** and **efficient access control**.
